

NEW TYPE OF GARAGE OPERATOR

Dear customer,

We would like to inform you about a change in the type of garage operator. From April 2021, our offer will replace the existing Black600 operator with a new type called WB800.

One of the leading advantages of the new WB800 garage operator is the possibility of using it for a door leaf with an area of up to 13 m². All this while maintaining the same selling price. Black600 model is allowed to be used up to 10 m² door leaf only.

In addition to the modern design, new WB800 garage operator also brings a more user-friendly display location for easier control of the control unit built into the operator.

Operator WB800

Remote controls in a new design will be continuously supplied with all types of garage operators.

Drive	Slat	Remote controls	Frequency	Gross price	Door leaf size
Black600	ZS30	2pcs 3-channel	868 MHz	284,58,- €	10 m ²
	ZS40	2pcs 3-channel	868 MHz	310,08,- €	10 m ²
WB800	ZS30	2pcs 3-channel	868 MHz	284,58,- €	13 m²
	ZS40	2pcs 3-channel	868 MHz	310,08,- €	13 m²
