

NEW HANDGRIP AND SLIDE BOLT

Dear customer,

we have extended our product range with a new handgrip and a slide bolt for the garage door TOORS GUARDY with extension and torsion springs. The handgrip and the slide bolt can be ordered in the black and silver options. As a default, the slide bolt is located in the second section, either left, right or in the centre. When placing the slide bolt into the centre of the door wing, the maximum width of the door is 2,500 mm. When using the extension of the connecting rods, it is possible to deliver it for the door with the width up to 5,000 mm. As a default, the handgrip shall be located under the slide bolt in the first section. The handgrip and the slide bolt can be ordered separately.

Description	BaaN code	Gross price (€/pc)
Slide bolt, black	T09-005-0064	138,00
Slide bolt, silver	T09-005-0065	138,00
