

OPERATORS TORMATIC BLACK

Dear customer,

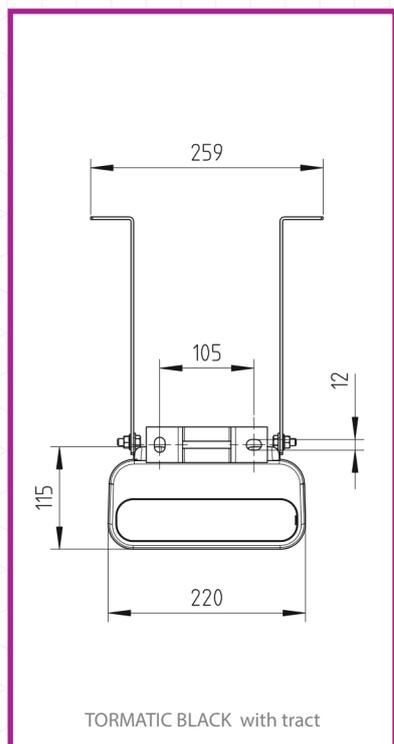

we would like to inform you about an innovative product range of drives TORMATIC BLACK, which will replace operators TORMATIC GTA.

Drives TORMATIC BLACK combine advanced technology with high energy efficiency. LED lighting is newly placed on both sides of the operator, which together with the strong light intensity ensures a comfortable lighting of the space. Another advantage is its long life time. Newly there are two alternative options for the installation of the operator to track. Parallel to the track or perpendicularly to it.

Motors TORMATIC BLACK follow a simple way of installation and setting of GTA model. The practical 3- button programming allows quick and easy setting of the operator. Integrated special functions ensure a high operating speed, together with the optimal settings of running features.

TORMATIC BLACK 600
